EDUCATION

2019 - 2021

STANDARD COLLEGE

- INTERMEDIATE (ICS)

2021 - Present

UNIVERSITY OF MANAGEMENT
AND TECHNOLOGY

- Artificial Intelligence
- GPA: / 4.0

SKILLS

- Python
- My SQL
- Neo4j
- HTML, CSS
- Javascript
- C++

LANGUAGES

- English
- Urdu
- Punjabi

PROFILE

Focused and adaptable developer with expertise in Python, MySQL, and Neo4j. Proven track record in developing cutting-edge solutions, including a smart home automation system integrating AI-driven chatbots and a comprehensive bank management system in C++. Skilled in leveraging advanced technologies to deliver efficient, secure, and user-centric applications.

PROJECTS

CHATBOT

PYTHON

- This web-based initiative harnessed natural language processing to interpret user inputs and produce relevant responses, all integrated within graph databases.

Intelligent Home Automation via Chatbot Interface

PYTHON

- Developed a smart home automation system leveraging conversational AI and natural language processing for seamless, voice-controlled interaction with home devices, utilizing graph databases for accurate and context-aware responses.

BANK MANAGEMENT SYSTEM

C++

- Developed a robust bank management system in C++ that handles customer accounts, transactions, and financial operations efficiently, ensuring data integrity and security through comprehensive functionality and error handling.
